### ITCHING STOPS; **RED NOSES GO**

New Skin Remedy Works Quickly and Effectively.

Many references have been made in newspaper columns lately to itching palms, red noses and pimples, which, in the opinion of those who claim to know, are but minor affections, easily and readily cured by poslam, which can be obtained at Traffe's or at any good druggist's. Still it must be remembered that poslam, as originally evolved, is first, last and all the time a remedy for eczema, stopping the teching immediately and quickly restoring the health of the skin. So with every form of itching disease, hives, rash, ringworm, fever blisters, piles, acne, sores, scabs and cruptions of every kind.

The sample package of poslam which the Emergency Laboratories, 22 West Twenty-fifth Street, New York, is sending out by mail free of charge to every one who writes for it tells the whole story, and is sufficient to clear the complexion overnight, or to rid the face of pimples in 24 hours.
